What have you asked  
for under your  
tree?

It is now the middle of November and the great weather is definitely over; the toys have been put away for the winter, and we are in the midst of cleaning our yards of leaves and getting ready for the colder months of winter. The year is coming to an end.

At this time, I would like to thank the current executive for their participation and assistance in making this a fantastic year. We have added some new members, provided a social calendar that provided activities every month, and did our utmost to satisfy the stated desires of our membership. In addition to our social events, we also held the most successful car show to date enabling the club to donate over \$17,100 to the Niagara Peninsula Children's Centre. Thank you Wilf, Gloria, Glennie and Dave. Also, we must also thank Wendy Lindberg for acting as membership director and Wendy Bas for once again arranging for a full and interesting social calendar. In addition, we must thank Ian Bell for providing an interesting and informative newsletter each month, as well as Bill Colclough for updating and operating our website. There are other members who sponsored individual activities and they should all be thanked for their involvement and interest in supporting the club and what it stands for. We appreciate all of your efforts.

At the November meeting, we held an election and we must show our appreciation for those folks who stepped forward to take up the challenge for the positions that have come open during the course of the year. Thank you to Harold Anders, our new vice-president, Carol Hill, our new secretary, and to Ray Maude Jr. for putting his name forward to make it a true election this year and providing an alternative to our members. I personally feel that in order for the club to maintain its successes into the future, it is important to improve the participation in the club's activities and active involvement of the membership. This requires periodic changes in the executive and the addition of "new blood" to the executive – otherwise we will get stale and interest will wane.

I would also like to thank all those members who participated in the various social events that were held by the club. Your involvement in these events supports the efforts of the members who planned and arranged the events and made it interesting throughout the year. Thank you all.

We have a great club and we want to see it succeed into the future. This year we celebrated our 35<sup>th</sup> anniversary and it would be great if we could ensure it's continuation for the next 20-30 years. In order to have this occur, we must bring in new members and also ensure that they become active in the life of the club.

Now, before the year is over and we celebrate Christmas and the coming of the New Year, there are still a couple of events planned for the balance of this year. On the evening of November 22, we will have our annual Christmas Dinner and Party. Leslie Daudelin has arranged for an interesting evening at a new venue in Port Colborne, so I ask as many of our members as can fit this date into their busy schedules to call Leslie and sign up for this event. Also, as in previous years, we do not have a club meeting in December, but are once again planning to get together for an informal dinner at Betty's Restaurant in Chippawa, for the evening of Tuesday, December 2. If you would like to participate, please contact Larry Keighan.

Also, since the year is coming to its inevitable conclusion, it is time to renew membership for 2009. A membership renewal form is included in this newsletter and we will once again hold a draw at the January meeting for a free membership to one of the lucky members who has renewed their membership by this meeting.

We now have to start planning for 2009, so have a great and safe Christmas season and plan to attend the January 6<sup>th</sup> meeting.  
Save the Wave!

*George*

## JUST FOR LAUGHS

### The Perfect Woman

Once upon a time, a perfect man and a perfect woman met. After a perfect courtship, they had a perfect wedding. Their life was, of course "perfect."

One snowy, stormy Christmas Eve, this perfect couple was driving their perfect car (A Corvette) along a winding road, when they noticed someone at the side of the road in distress.

Being the perfect couple they stopped to help.

There stood Santa Claus with a huge bundle of toys. Not wanting to disappoint any children on the eve of Christmas, the perfect couple loaded Santa and his toys into their vehicle.

Soon they were driving along delivering the toys.

Unfortunately, the driving conditions deteriorated and the perfect couple and Santa Claus had an accident. Only one of them survived the accident.

Who was the survivor?

The perfect woman survived. She's the only one who really existed in the first place. Everyone knows there is no Santa Claus and there is no such thing as a perfect man.

So, if there is no perfect man and no Santa Claus, the perfect woman must have been driving. This explains why there was an accident.

## Economic woes hit Corvette production

---

DETROIT – The automotive recession is even taking its toll on a car often cited as recession-proof: the Chevrolet Corvette.

General Motors confirmed that it will halt production of the two-seat sports car during the week of Oct. 6, then reduce line speed and lay off some employees. It is the first inventory-related closure of the Corvette assembly plant in Bowling Green, Ky., since at least 1995.

“We've weathered a lot of downturns,” said Eldon Renaud, president of United Auto Workers Local 2164 in Bowling Green. “But I think this one has finally lasted long enough and people are concerned enough about the economy that it's probably having a minor effect.”

It is unclear when the plant last closed for oversupply reasons. Though the plant went from two shifts to one in the 1980s, Renaud said, he can't remember a production shutdown since he arrived in 1981.

When Corvette assembly resumes the week of Oct. 13, the assembly line speed will drop from 18.5 vehicles an hour to 15, GM spokeswoman Sharon Basel said. GM also expects to lay off an undetermined number of employees, she said.

Renaud said up to 75 people could be laid off. The Bowling Green plant, which also assembles the Cadillac XLR roadster, employs about 800 hourly workers on one shift, GM said.

Through the first eight months of 2008, Corvette sales fell 8.5 percent to 21,066. They rebounded 47.4 percent in August after 2008 models were included in GM's employee pricing sale.

### [GM is Bullish on Corvettes](#)

**Corvette** vehicle-line executive, **Tom Wallace**, says, "We're still working on future **Corvettes**, but the scope of change is not yet decided. There are changes, some neat stuff, coming for **2010** that I can't talk about yet." When pushed for details on **Corvette** in light of new MPG mandates from the Federal government, Wallace replied that these concerns haven't "inhibited **Corvettes**. No one is saying we're not doing **Corvettes**. We're still **bullish on Corvettes**."

In the same interview with [AutoWeek](#) magazine, Tom also indicated that plans are NOT tied down for the next **C7**. In fact, it is not even known when the **C7** will appear, a great disappointment to those eagerly awaiting its reveal! Thanks to an article from our partner in **Corvette** promotion, **Keith Cornett** at [CorvetteBlogger.com](#), we were alerted to these ground-breaking insights on the next-generation **Corvette**. So, hang on tight, while **GM** determines how to survive further into its second century. **Corvette** is perceived to be an important part of **GM**. Let us hope they continue to impress us!

**OM WALLACE ANNOUNCES HIS RETIREMENT  
EFFECTIVE 11-01-08**

Members, Let us be the first to Congratulate Corvette's Chief Engineer and Vehicle Line Executive, Tom Wallace, on a magnificent career at General Motors!

Tom has always been a fantastic friend of the Official C5/C6 Registry and its members.

His leadership of Corvette over the last few years has been outstanding! Having a "Racer" at the helm of our beloved Sports Car has certainly shown through with the recent introduction of the 2009 ZR1 as a true American made Race Car...we mean, "Gentleman's Corvette"!

Tom shared with us some time ago that he has always been committed to Corvette and its lifestyle, and being promoted to Chief Engineer of Corvette was certainly a dream come true!

From all of us at the Official C5/C6 Registry, **A BIG C5/C6 THANK YOU** goes out for the difference you have made in Corvette and the exciting Corvette's you have brought us!

Replacement for Tom Wallace who is retiring November 1/08

**NEW VLE APPOINTED FOR CORVETTE**

Effective November 1st, Eugene (Gene) Stefanyshyn - GM's Global Rear Wheel Drive Vehicle Line Executive, is new VLE for Corvette. Gene's duties include Corvette, Sky, Solstice, Camaro, XLR, and Pontiac G8. Gene is based at GM Holden, Australia. Gene Stefanyshyn's background includes stints at the Saab Technical Center in Sweden, and at Opel's International Technical Development Center, which he says was helpful with regard to working with his international colleagues on the Epsilon variants. He was vehicle line executive (VLE) overseeing the North American "Epsilon" platform models.
